# Linda Arnold

**"My** secret fantasy is to be Mary Poppins," says the talented Linda Arnold. "There is a part of me that loves imagination and fanciful things."

Linda's delightful songs will tickle your child's fancy as she sings them, accompanying herself on the guitar, in a voice sweet, pure and clear. A composer as well as a singer, she creates an enchanting array of colors, shapes and magical things in her music including clocks that talk, purple cows and lonely vegetables who lament that kids won't eat them. Linda possesses a special knack for creating a fairy tale land and invites "visits" from your children, avidly encouraging them to exercise their imaginations to "see" her songs. Compelling songs with more serious themes are also featured in her award-winning recordings.

Linda makes regular television appearances, including features on the Disney Channel. As the mother of two, she brings her own family and experiences into focus with her music. Her daughter Katy has performed side-by-side with Linda both on the concert stage and in the recording studio for many years. Son Toby is also beginning to join in the family fun.

With Linda, your child's imagination is the "key" to a magical musical world she fills with funny, winsome characters. Satisfaction guaranteed!

celebrate the imagination with Tim Noah! A multi-talented singer/songwriter/actor, Tim's energetic recordings will treat your children to whirlwind musical adventures built from the materials of the imagination.

Meet Musty Moldy Melvin and Greasy Grimy Gertie...embark on a safari through the wilds of Africa...fly through outer space...all in the fantastical epic titled **In Search of the Wow Wow Wibble Woggle Wazzie Woodle WOO!** Performed in singable rock, Tim's adventure teaches kids about the special things that happen when they use their imaginations to explore the world.

For some good ol' down-home fun, try Tim's **Kaddywompas**, a country-quilt collection of songs about western life on the farm. A "lower than slug-slime" outlaw named Mud and protesting potatoes are just a few of the lyrical (and comical) subjects in Tim's tuneful tales.

# F R A N K CAPPELLI

Meet Frank Cappelli...a warm, engaging artist who possesses the special ability to transform the simple things in a child's life into a wonderful musical experience. Frank's songs display a wide variety of musical styles including polka and reggae. He builds his songs around children's everyday experiences like visits from grandma, brushing teeth, learning the alphabet, making a pizza and much more. Delivered with humor, inventive melodies and unique musical embellishments, Frank's imaginative songs educate through entertainment and are sure to get a giggle out of even the most grown-up of listeners. Live in concert, Frank's truly unique style is augmented by his wireless capability, allowing him total freedom to wander, with his guitar, throughout the audience. His trademark "sing-and-dance-alongs" always generate enthusiastic participation from concert-goers. This energetic, interactive style carries over into his videos and award-winning children's television variety show, *Cappelli and Company*. Look for it to come to your area soon. Frank's career has grown from his lifelong love of music. After graduating from West Chester State University as a voice major, Frank was involved in a number of independent activities, almost all musically-related. He discovered the magic of performing for young audiences while in college as a student teacher. Later he wrote and developed more songs for his own children...and children and their parents across the nation have been grateful ever since. With his five hit cassettes and two videos full of refreshingly original, colorful melodies, Frank Cappelli is an artist quickly finding a place in the hearts of the young and the young at heart.

**D**o you remember what it's like to be a kid? Bill Harley does! His wacky musical tales of common childhood triumphs and traumas guarantee plenty of laughs and knowing smiles as they enhance your child's understanding of family relationships.

Bill is a writer, composer, and performer for children who draws his material from folk tales, childhood experiences, and his own very active imagination. With musical styles from reggae to doo-wop, amazing character voices and funny sound effects, his stories and songs are so enchanting that the entire family will find themselves enjoying a toe-tapping, hand-clapping sing-a-long!

"I perform to remind everyone, including myself, that we all have a great deal in common... and the things that make each one of us unique, are things worth celebrating." Bill embraces everyday issues including conflicts over TV, squabbling siblings and too-busy parents. Through song and humor, he brings these concerns to the surface in an effort to help children understand that other kids, too, have the same problems. Similarly, adults recognize themselves and their situations in Bill's anecdotes as he gently reminds them of their own childhood feelings and experiences. All in all, you'll meet kids who become dinosaurs and TV-tossing Dads as Bill provides non-stop entertainment that captivates the whole family.

The *New York Times* has labeled him “the phenomenon” of the children’s music business. *Newsweek* has dubbed him the “Bruce Springsteen for little kids.” We call him Raffi, the pioneer of quality entertainment produced especially for children. **Raffi** was the first North American artist to create original music for kids back in 1976, and today is one of the most popular children’s entertainers in the world. The secret to his success, he says, is that his music respects its audience. “By understanding that children are whole people with important feelings and concerns, we give them the best chance of becoming healthy, loving adults.” **T**his basic philosophy, when combined with his remarkable musical talent, has won him the undying loyalty of parents worldwide. Raffi combines traditional childhood favorites with original material. Children have been known to “shake their sillies out, clap their crazies out, jump their jiggles out and wiggle their waggles away” at Raffi’s perform-

ances, according to the *Washington Post*. **Raffi’s** award-winning concert videos are full of his best songs and enthusiastic audience participation, ensuring that kids will watch them over and over again. **A Young Children’s Concert With Raffi** features Raffi in a solo performance before a packed house of adoring kids and their parents. **In Raffi In Concert with the Rise and Shine Band**, Raffi teams up with his terrific back-up band to present some of his most popular songs such as *Baby Beluga*, *Shake My Sillies Out*, *Everything Grows* and *Apples and Bananas*. During the show, simple and childlike visuals are projected onto the backdrop of cloud shapes to enhance his songs—such as a blue, shimmery underwater effect for *Baby Beluga* or bubbles for *Bathtime*. **Raffi In Concert** was named for 1989 “Best Kid Vid” by *Video Review* magazine and 1988 “Best Children’s Title, Original Concept” by *Video Insider* magazine.
