GINO VANNELI JUST WANNA STOP

C/W

The Surest Things Can Change AMS 7397

Gino Vannelli has just made a major breakthrough in The States with a hit Album "Brother To Brother" (AMLH 64722) and his Single "Just Wanna Stop" is standing at No. 16 in the U.S. charts as I write this.

The indications are that he is ready to duplicate this success here with his sophisticated disco sound.

"Just Wanna Stop" is available in a special Single bag.

"Some Things Never Change" is the first major record release of next year - available now.

1978 is now over...

And David Kubinec is about to become established as one of the most important new recording artists.

If you don't believe this...

Just listen to "Love In The First Degree", "Some Things Never Change" ... or any track - pick one at random.

The Album features Chris Spedding (guitar), Ollie Halsall (guitar), Timi Donald (drums), Jimmy Bain (bass), Pat Donaldson (bass) and was produced by John Cale who also played keyboards.

All titles were written and sung by David Kubinec.

Expect a massive media campaign, even if we don't really need one.

David Kubinec is worth shouting about.

Milton is currently one of the most important singer/songwriters in Brazil. He has enjoyed that reputation for almost 10 years, having recorded seven commercially-successful albums in that country of music that has its origins in the Black Slave era which dates back almost 300 years. This music, interpreted by Nascimento, is an exciting blend of jazz and folk idioms full of exciting percussive effects, rigorous chantings and fluid melodies.

Horizon

Don Cherry (trumpet) is a jazz cult figure who has enjoyed semi-underground musical prominence for more than 20 years. One cannot label this album as jazz - because it is closer in feeling and concept to the extended space rock/jazz conceptions offered by Pink Floyd, and modern classicist Luciano Berio. The extended title cut of the album is the best example of the preceding - with its eerie electric horn lines (Cherry on trumpet and Frank Lowe on tenor) soaring over a cooking R&B rhythm track set up by Charlie Haden (bass), Billy Higgins (drums), Hakim Jamil (bass), Moki (tamboura) and Ricky Cherry (piano).

Sides 1 and 2 of the new album contain brand new material featuring Quincy's latest discoveries Wattsline - a five-member vocal group, and contributions from the Brothers Johnson, Stairsteps, Bill Withers and Billy Preston. Sides 3 and 4 are the best of his award-winning material from previous A&M releases and include such tracks as "Is It Love That We're Missin'", "Summer In The City", "Killer Joe", "Gula Matari" and the "Theme From The Anderson Tapes". Most of these older numbers have either been edited or re-mixed for a brand new feel.

Billy and Bobby Alessi are special. The debut album on A&M by these two brothers born on the same day, is summed up by that generalisation. To use one-half of an analogy, had the Beach Boys been born and raised on the concrete sands of Long Island, New York, and recorded their first album in the second half of the Seventies ... Well, that gives you some idea, try the album!

A radical musical departure from the Mangione Norm for this composer/arranger/and multi-instrumentalist. Rick Wakeman's return to Yes, the group he quit over two years ago, will not affect his solo projects ... such as "White Rock", his soundtrack LP from the film of the 1976 XIIth Innsbruck Winter Olympics, released by A&M Records on 21 January 1977. "White Rock", which stars James Coburn as narrator, and sometimes participant in the Olympic events featured, is premiered for charity before Princess Anne and Captain Mark Phillips at the ABC Cinema, Shaftesbury Avenue, London on Monday, 31 January 1977. The "White Rock" album is almost exclusively Wakeman's keyboard music, with percussion contribution from his former English Rock Ensemble drummer Tony Fernandez, plus vocal assistance by the choir of St. Paul's Cathedral, London.

PHIL OCHS: CHORDS OF FAME

PHIL OCHS CHORDS OF FAME AMLM 64599

Double
Album

This two-record set is a brilliant and inclusive musical anthology tracing the career of the legendary artist Phil Ochs, who indeed was a true chronicler of his age, and a shaper of beautiful melodies. This anthology, which includes both materials from his Elektra albums, in addition to his work on A&M, is a mix of Ochs' early starkly topical/political songs, and his later final works which were subtle commentaries on the mores of fame, the mores of fortune, and the mores of napalm and death.

MIDNIGHT SUNRISE

Horizon

What makes Ornette Coleman so significant is that he is able to create a music that is not tonally grounded, does not rely on constant tempos, and makes intonation more a matter of personal choice than regimented standards. And all of it is rooted in melody, rhythm, and group interplay. Profound extensions of the basic ground rules of the aesthetic are brought about.

On their debut album, "Celebration", Karma dispelled the myth that studio musicians are mechanics who play without sensitivity or originality. The album highlighted the lyrical side of the group. Their latest effort, "For Everybody", is a sophisticated mesh of funk, improvisation and foresight.

WE
BREAKAWAY

Two of Britain's top contemporary songwriting units - Andy Fairweather Low and Gallagher and Lyle - have merged their talents to provide the songs for this unique album. Brian Rogers, whose string arrangements have adorned albums by Joan Armatrading and Boz Scaggs, as well as Gallagher and Lyle and Andy Fairweather Low, branches out on his own for the first time. The result is an instrumental album which enhances ten great songs and ten great melodies.

"The Grand Illusion" is Styx' seventh album, third for A&M, and is the culmination of a year of growing acceptance and increasing confidence within the group. The whole band is very excited about this album and feel "The Grand Illusion" is a tremendous progression from their two previous US charting A&M albums. The scene seems set for their first British success.
