

A&M NEWS

LEADING AMY GRANT ON

Amy Grant is one of America's truly great Gospel/Pop singers with over four million album sales, though she remains largely unknown here. This situation is likely to be remedied, however, with the A&M release on July 4th of Amy's new album "Lead Me On".

The album features ten new Amy Grant compositions, produced by Brown Bannister.

Tracks include the forthcoming title-track single, "Saved By Love", "Faithless Heart" and "Say Once More".

At the age of 28, Amy is already recognised as America's leading exponent of Gospel music. Her crossover appeal has seen her win 3 Grammy Awards and a catalogue of Dove Awards (the Gospel Music Association's Grammy equivalent).

Amy's live show (which regularly sees her selling-out venues the size of Madison Square Garden) will visit the UK this summer when she plays a series of shows as part of the Greenbelt Festival (the single will be released to coincide with the tour).

Amy's previous A&M LP's include "Unguarded", "Age To Age" and "Straight Ahead".
